Module AM3, Word Processing, Advanced - Level

The following is the Syllabus for Module AM3, *Word Processing, Advanced - Level*, which provides the basis for the practice-based test in this module domain. The Syllabus for Module AM3 is over and above the Skills Sets and underpinning knowledge contained within the ECDL Module 3, *Word Processing, Version 3.0* Syllabus. The advanced level designation for Module AM3 anticipates that the candidate has already mastered the Skill Sets and acquired the knowledge outlined in Module 3 of ECDL Syllabus Version 3.0

Module Goals

Module AM3 Word Processing, Advanced – Level, requires the candidate to use the word processing application to produce what are deemed to be advanced word processing document outputs. The candidate shall be able to operate effectively at more than a basic level of competence and be able to produce advanced word processing outputs, illustrating sophisticated typographical, formatting and layout presentations, including tables, forms or graphics. The candidate shall be able to use tools such as macros and to carry out more advanced mail merge operations within the word processing application
